Education

DKTE College of Engineering, Ichalkaranji

B.Tech in Artificial Inteligiance and Data science

2024-2028

8.10/10 CGPA

Experience

*CDAC Training in C++ and Data Structures & Algorithms:-
[Sunbeam] | [2024-25]*

- Completed structured training in C++ programming and core Data Structures & Algorithms.
- Gained strong understanding of Arrays, Linked Lists, Stacks, Queues, Trees, and Graphs.
- Learned key algorithms including Sorting, Searching, Recursion, and Dynamic Programming.
- Practiced problem-solving through coding platforms like LeetCode.
- Developed optimized solutions with focus on time and space complexity.

Projects

Student Performance Analysis System | Jan 2025 – Mar 2025

- Developed a data analysis system using Python and SQL to evaluate student academic performance.
- Applied data preprocessing and visualization techniques to identify trends and insights.
- Designed queries to efficiently extract and analyze large datasets.
- Built the entire system independently, focusing on accuracy and performance optimization.

Personal Portfolio Website | Apr 2025 – May 2025

- Designed and developed a responsive personal portfolio using HTML, CSS, and JavaScript.
- Implemented clean UI/UX with mobile-friendly design principles.
- Showcased projects, skills, and contact details in a structured format.
- Built and deployed the project independently

House Price Prediction Model | Jun 2025 – Aug 2025

- Developed a machine learning model using Python (NumPy, Pandas, Scikit-learn).
- Implemented Linear Regression to predict housing prices based on multiple features.
- Performed data cleaning, feature selection, and model evaluation.
- Built the complete project independently with focus on prediction accuracy.

TechnicalSkills

Programming Languages: C, Java, Python.

Web Technologies: HTML, CSS, JS.

Other Tools: Vscode, Git and Github.

Certifications

1.MHT-CET (Maharashtra Common Entrance Test)-

- Qualified state-level engineering entrance examination demonstrating strong aptitude in Physics, Chemistry, and Mathematics.

2.NPTEL – Design, Technology and Innovation-

- Completed NPTEL certified course focused on innovation, product design, and problem-solving approaches.
- Gained understanding of design thinking, technology integration, and real-world application development.

Achievements/Awards

- Solved 100+ Data Structures and Algorithms problems on LeetCode.
- Strong foundation in problem-solving and algorithmic thinking.
- Secured 89 % percentile in MHT-CET examination.
- Demonstrated strong aptitude in Mathematics and Logical Reasoning.
- Maintained CGPA of 8.10 in B.Tech (AI & Data Science).
- Consistently performed well in core technical subjects.
- Completed NPTEL course in Design, Technology and Innovation.
